## INDEX: PRATAPGARH DISTRICT

## OVERVIEW

On 26<sup>th</sup> January 2008 Pratapgarh got the proud of being 33<sup>rd</sup> district shown on the map of Rajasthan is created from the areas taken from Udaipur, Banswara and Chittorgarh districts. As a newly created district Pratapgarh includes the tehsil area Arnod, Pratapgarh and Chhotisadri from Chittorgarh district, Dhariawad from Udaipur district and Peepalkhoont from Banswara district. Pratapgarh is situated in the southeastern part of Rajasthan in Chittorgarh district. The area adjoins Udaipur and Bhilwara districts of Rajasthan and Mandsaur district of Madhya Pradesh. It is situated in the junction of the Aravali mountain ranges and the Malwa Plateau; hence the characteristics of both prominently feature in the area. Pratapgarh is located at 24.03° North & 74.78° East. It has an average elevation of 491 meters (1610 feet). Well known for pure gold and glass-inlay handmade unique jewelry called "Thewa".

Covered with natural beauty and lifestyle of Vagad, Mewad and Malwa this new district is famous by the name of KANTHAL. Tribal dominated population is the rich Ganga-Jamuna culture of this district.

From the historical view, this is a place where the emperors of mewad rajwansh ruled which has been famous as a name of devaliya state in the history whose capital has been situated 10 kilometers west from Pratapgarh named avasthit devaliya town. District's sub tehsil Devgarh's historical fort on which roof clock is placed which is created to show the time from sunlight. In this fort historic avshesh of royal houses is yet available. Devgarh's tatkaleen emporer Maharaval Pratap singh of independent rajasthan established the "Pratapgarh" nagar which is covered by perkota from four directions. In the perkota there is 56 link roads and 6 Important city gates which shows its design and citizens lifestyle. Just after independence from 1948 to 1952 it was district headquarter but after reorganization of districts due to administrative and Political issues district headquarter has been changed.

Pratapgarh also have good scope of Eco Tourism. The Sita Mata Wildlife Sanctuary encompasses good Fauna and Flora; if you are lucky you can spot Flying squirrel, Black Naped Monarch, Lesser Florican etc.

The major attractions of the district are Sita Mata Wildlife Sanctuary and Jakham Dam, however, large number of visitors and pilgrims do visit the old temples at *Ambamata Shaktipeethh, Bhanwarmata, Gautameshwara Mahadev Paapmochan Teertha, Sholi Hanuman Temple, Deepeshwar Mandir* and many other temples. The magnificent Tomb (Dargah ) of *Syedi Kaka Ji Saheb* is also a popular destination, especially amongst Dawoodi Bohra community of Muslims, who gather here in large numbers on the occasion of Annual *Urs* of Syedi Kaka Ji Saheb.

Although the local tribals make different bamboo handicrafts for themselves, the most notable craft evolved by traditional goldsmiths (Raj-sonis) of Pratapgarh is precious jewelry Thewa which is in great demand amongst modern ladies in India and abroad

## 2. DISTRICT PROFILE

### GEOGRAPHICAL AND PHYSICAL FEATURE

Pratapgarh is located between 23°40'' to 24°50'' North latitude and 74°19'' to 74°94'' East longitude with an average elevation of 491 meters (1610 feet above mean sea level). It is said to be the second highest place in Rajasthan after Mount Abu. Because of its unique location on the junction of the Aravali mountain ranges and the Malwa Plateau, it carries the geological characteristics of both. The geographical area of Pratapgarh is 4,11,736 hectares, out of which forest coverage area is 1,20,976 hectares (2009-10).

It has high geographical and physical diversity ranging from highly dense forests to hilly terrain and plateau. The average annual rainfall is 756 mm. The soil is mainly highly fertile Black Cotton Soil made of magma of volcanos. The major rivers of the district are *Jakham*, *Mahi* and *Siwana* or *Shiv*. Other seasonal rivers are *Som*, *Eraw* and *Karmoi*. Out of five sub divisions, four sub divisions except Chhoti Sadri, are notified forest blocks, where no major industry or mining activity is allowed under law. However, in non-forest regions of Chhoti Sadri (and part of Pratapgarh and Dhariyawad), small scale minning activities are in operation extracting mainly Red Ochre, Calcite Dolomite, Quartz, Feldspar and Soapstone. Marble, Building-stone and Limestone are also available in small quantities.

For administration and development, the district is divided into five sub-divisions i.e. Arnod, Chhoti Sadri, Dhariawad, Peepalkhoont and Pratapgarh and five tehsils, i.e. Arnod, Chhoti Sadri, Dhariawad, Peepalkhoont and Pratapgarh. A Sub Divisional Officer (SDO) work at the sub division to provide support and leadership to the administrative system at local level. The developmental activities of the district are being looked after by five Panchayat Samities, i.e. Arnod, Chhoti Sadri, Dhariawad, Peepalkhoont and Pratapgarh. There are total 1008 revenue villages, 163 Patwar Circles and 165 Gram Panchayats.

## **14. Industrial Area-**

In 1978, 86 bigha land was allocated to RIICO to establish industries/enterprises in Bagwas revenue village. Till now only 40 plots are allocated to 30 units, out of which 18 units are closed and remaining land is vacant. Out of this land, people encroached and developed a *kacchi basti* in 5 bigha land. Nagar Parishad issued Pattas to these people during "*Prashashan shaharon ke sang abhiyan*". Khasara no. 550 rakba 14.59 hectare is allocated to RIICO only. Demarcation and industrial development needs to be done by RIICO.

Entrepreneurs are facing difficulty in getting land due to non availability of RIICO office in district. It is necessary to develop a new industrial area by RIICO.

### **14. Industrial Scenario:-**

**Brass filling art:-** Bharava in one cast of tribal areas. Bharava use to make brass ornaments for tribal and statues of God and Goddess. Bharava believes Siddhapur- Patan as their residence place. It is believed that King of Siddhapur-Patan once ordered to goldsmith to build a solid gold statue in supervision of ancestral army. Goldsmiths were not able to make that statue but their ancestors learned that art and built that statue by putting gold in rake using *bharava* style. King was so happy with their work and adorned them with *bharava* title. Bharava art was developed during this period and people doing filling work were known to be Bharava.

The process of bharava art is much more difficult than what it is seen. Soil, cow-dung and wax are used to make rakes for gold filling. Brass and Zinc are used to prepare circular designs in which ornaments and statues are major.

Two family of Pratapgarh and two family of Dhariyawad are working in this field. To promote *Bharava art*, workers are benefited through Artisan credit card scheme.

**Timber art:** - Timber art famous as cottage industry during principality period needs to be promoted. This occupation was successful even after three decades of independent due to easy availability of timber. Later on due to lack of raw material, source of livelihood for people linked with this industry started declining. Availability of electronics and plastic toys in market also affected this occupation.

Toys made of timber, cylinder brothel, flail wall lamp, quern, ash tray, glass and many agriculture tools are made in this occupation. Five to seven families of Pratapgarh and Cheniyakheri are working in this field.

Second major product of timber art is wooden furniture. Many nearby families are working in this area. Timber of teak and acacia is easily available in Mandisor and Neemuch district.

**Bamboo basket-tree guard:-** People of Ganchha and Dhuri community are doing bamboo basket-tree guard work. Bamboos are easily available in forest. Forest department also provide subsidy for bamboos plantation. People involved in this work makes different types of baskets and tree guards, and sale them at local level. This work is carried out extensively in Pratapgarh and Dhariyawad. Around 100 to 125 families of district are involved in this work.

In year 2009-10, around 20 to 25 families got benefit through Artisans Credit Card Scheme provided by District industries center, Pratapgarh.

**Clay Pottery:-** Around 20-25 families of Devgarh, historically famous place of Pratapgarh estate are involved in clay pottery work. Around 70-80 families in Pratapgarh and nearby area also carry out clay pottery related work and dependent on this cottage industry for their livelihood.
